

Reminder and Information on the use of the BIOHIT SARS-CoV-2 Rapid Tests

(May 2020)

BIOHIT and DIALANE inform you that the product specified above is not considered a self-diagnostic product.

The marketing, purchase and use of these products are subject to compliance with the requirements established by the laws and regulations in force in each country of destination.

The tests are intended for professional use only and must be carried out in suitable conditions and facilities.

They may be used by legal persons, residences, etc. provided that your activity has or has contracted an occupational risk prevention service that in addition to the constant application of the recommendations and guidelines, also carries out health activities in compliance with the points described here and in addition to the constant application of the recommendations and guidelines that the competent authorities may impose on the use of the product at any time.

For legal persons (companies), the test can be also used also for internal control and monitoring of the employees, but depending on the legislation of each country, may they can only be used by medical and health personnel.

The Tests will be used, distributed and/or marketed by the client with the original packaging, names, instructions for use and marks of origin, which may not be modified in any way without the prior consent of BioHit.

Remember to follow the recommendations published by the Ministry of Health and competent health authorities on how to act in case of having symptoms of COVID-19.

You can find more information and the correct use of the product in the "Instructions for use", which can be found in the box.

BioHit and Dialane AG are not responsible for non-compliance with the information described here or for misuse or incorrect use of the product.

Sincerely,

DIALANE AG (www.dialane.org)
